- \* Maintenance Object, Application Service, and Schema
- \* Schema, Validation Algorithm, and Maintenance UI Map
- \* Display UI Map, Display Map Service Script, and Maintenance UI Map
- \* Validation Algorithm, Post Processing Algorithm, and Lifecycle

### NEW QUESTION 35

Which two statements about usage subscription types are correct? (Choose two.)

- \* Usage subscription types define the main billing contact.

- \* Usage subscription types define the time zone.
- \* Usage subscription types define the valid service point types.
- \* Usage subscription types define the recipient of the usage.

### NEW QUESTION 36

There has been a meter exchange at a service point in the past year.

How many installation events exist for the service point for the past year?

- \* Two
- \* One
- \* Four
- \* None
- \* Three

### NEW QUESTION 37

Which two plug-in spots can call the rating functionality using base package-supplied algorithm types? (Choose two.)

- \* Adjustment Type &#8211; Adjustment FT Creation
- \* Billable Charge Template
- \* Bill Segment Type &#8211; Bill Segment Create
- \* Adjustment Type &#8211; Generate
- \* Bill Segment Type &#8211; Bill Segment FT Creation

### NEW QUESTION 38

A device has one or more measuring components that measure consumption, demand, or other values.

Which lists two attributes of a measuring component?

- \* Channel Multiplier and Channel ID
- \* Channel ID and Badge Number
- \* Serial Number and Badge Number
- \* Model and Serial Number
- \* Manufacturer and Model

### NEW QUESTION 39

New: An electric utility is starting an Advanced Meter Infrastructure (AMI) roll-out for their residential customers. The initial plan is to roll out devices from their manufacturer with potentially three different device models. The customer has not decided what head-end systems they will use to communicate with these devices. Based on the customer's initial roll-out strategy, the devices will have to be configured consistently to support existing tariffs for billing.

Which is a valid consideration to determine the setup of device type administrative data for this implementation?

- \* billing usage rules
- \* the model number
- \* the device's date of manufacturer
- \* valid head-end systems, valid device configuration types, and the electricity service type

### NEW QUESTION 40

How many Tenders can a Payment Event have?

- \* one Tender per Payment Event
- \* one Tender for each account the payment is applied to
- \* one Tender for each form of Payment submitted
- \* no Tenders for Payment Events, only Payment Segments
- \* no Tenders for Payment Events, only Payments
