Free Adobe AD0-E117 Exam Questions and Answer

Adobe AD0-E117 Exam Syllabus Topics:

TopicDetailsTopic 1- Translate high-level business goals to functional requirements- Apply procedural concepts for designing scalable and resilient architectureTopic 2- Given a scenario, identify and resolve design issues revealed during implementation stage- Given a scenario, diagnose and resolve issues encountered during implementationTopic 3- Given a scenario, recommend implementation approaches based on requirements- Apply procedural concepts to plan for use of new features and upgradesTopic 4- Given a scenario, assess the current state of an architecture- Determine non-functional technical requirements for solution design

NEW QUESTION 31

A client is migrating the content from a legacy website to an existing AEM implementation. An Architect evaluates the content of the legacy site and determine-that there are approximately 20.000 pages with a common structure, and a few hundred pages that do

not follow a pattern. The client wants to complete the migration as soon as possible.

Which approach should the Architect recommend for the content migration?
* Use Site importer to import the content into AEM
* Migrate all common pages using the ETL procedure with multiple rounds
* Recreate the entire content manually with a group of Content Authors
* Migrate all common pages using the ETL procedure and use manual authoring for the rest

NEW QUESTION 32

A client designs a new experience for one of their brand sites with the following parameters:

* The new experience should behave like a desktop application

* There is a lot of dynamic content in the app

* SEO and initial page load are a top concern for the client

* The client’s marketing team needs to be able to author the content with a WYSIWYG editor Which approach should the Architect use to meet these requirements?
* Use AEM as a headless CMS
* Use the traditional server side components on the website
* Use the SPA Editor SDK with Server Side Rendering
* Create a set of API-driven components

NEW QUESTION 33

A retail customer with an international presence and both in-store and online sales needs a new assets platform. The customer decides to use AEM assets. The customer’s sites will continue to run on their proprietary CMS for websites.

The customer wants to be able to scale the platform for spikes in user traffic such as on local sales or online marketing campaigns. Under some circumstances, the customer also has a higher load of editors for a certain period of time.

Which architecture should an Architect use for this business case?
* An AEM Publish instance on Adobe Managed Services with auto scaling
* An AEM as a Cloud Service Sites with Dynamic Media
* An AEM Assets setup on Adobe Managed Services with Cloud Manager
* An AEM as a Cloud Service Assets setup using the combined CDN for delivery

NEW QUESTION 34

During the implementation of a public-facing website based on AEM as a Cloud Service, the customer raises an additional requirement to have a commenting functionality for end users implemented on the pages.

What should the Architect do to make the design a future proof solution?
* Save comments in JCR and leverage Sling Distribution to synchronize comments between publishers
* Integrate a third-party solution to store comments externally
* Use MongoDB as provided with AEM as a Cloud Service to store the comments
* Save comments in JCR and leverage reverse replication to synchronize comments via author

NEW QUESTION 35

A customer’s photo gallery site uses query parameters to filter photo search results. The site experiences high AEM Publish server load when users filter photos on the site. The customer would like to identify the cause of this issue.

What should the Architect investigate first?
* ignoreUrlParams configuration in dispatcher.any
* Dispatcher load balancing configuration
* Cache-Control Headers in dispatcher.any
* Volume of assets being loaded at a time

NEW QUESTION 36

A client’s site does not show the latest page content for some site visitors. The client has two data centers with each configured with a Dispatcher connected to two Publish machines. The site load issue only occurs intermittently for visitors from one of the data centers.

Which step should the Architect take to resolve the issue?
* Disable caching on all impacted data centers Dispatchers to force the Publish machines to serve the page content
* Check the Publish instance(s) attached to the Dispatcher associated to the impacted data center
* Check the SSL certificate on the impacted data center’s load balance.
* Review the log files on the Author instances to determine if there are any template errors

NEW QUESTION 37

A customer has an international presence and a strong brand image. The customer considers the exceptional quality images used for both print and on the website to be essential for its business, The customer uses AEM

6.5 managed services with a configuration of 2 dispatchers, 2 publishers, and 1 author.

The original images can weigh up to 500Mb with videos weighing even more. Renditions are generated after files are uploaded to AEM DAM by the Design team so the Authoring team can use them on the website.

The teams report issues with platform stability and slowness. Visitors report that images look pixelated on some screens and pages are very slow to load.

Which two actions should the Architect take to resolve these issues? (Choose two.)
* Train the design team to upload smaller assets and save the originals elsewhere
* Allocate more memory to ImageMagick and FFmpeg
* Optimize renditions for the different viewports used by the visitors
* Split AEM Assets and Sites in two different stacks and use Connected Assets
* Add more dispatchers and publishers to the AEM configuration

NEW QUESTION 38

A customer has a requirement to allow authors to access AEM with single sign-on. To achieve this an Architect needs to integrate AEM with the customer’s identity management system.

Which two actions could an Architect take to meet this requirement? (Choose two.)
* Implement the generic SSO Authentication Handler interface

* Configure the Sling Authentication Requirements for the OSGi HTTP Service
* Configure the SAML Authentication Handler
* Configure the generic SSO Authentication Handler
* Implement a custom JAAS Login Module

NEW QUESTION 39

A large retail customer is building their ecommerce platform on AEM. Several third-party vendors sell products through their site. Those vendors need to review and verify the content close to production before the content goes live and the customer wants to provide them a restricted environment.

Which approach should the Architect recommend?
* Give third-party vendors access to the Author Server
* Use the Preview Capabilities of AEM Author Server
* Export content as PDF and share with the vendors
* Add a Publish (preview) Server and provide access

NEW QUESTION 40

A client is in the discovery process for building a React native app, which is a single codebase that runs natively on iOS and Android. The goal is to reduce development costs. The client wants to reduce content creation costs in the new react Native app by reusing as much of the marketing content already publish in their AEM instance.

What should the Architect recommend to meet this requirement?
* Experience Fragments
* OSGi Bundles
* Sling Resource Resolution
* Content Fragments

NEW QUESTION 41

During an optimization session, a client using AEM 6.5 mentions that they face challenges with their AEM Author setup. The client has significant repository growth and can see an increased amount of TAR files in the segmentstore on disk. When editors are working, they see that workflows take up more time. The purging of workflows works as expected. Which two optimizations should an Architect suggest to took into and further investigate? (Choose two.)
* Leverage workflow offloading for all workflows
* Configure the Maximum Parallel Jobs
* Increase the maxFileSize of the TAR segmentstore
* Leverage Transient Workflows where possible
* Execute an offline tar compaction twice a day

NEW QUESTION 42

An Architect needs to design a deployment process without downtime for end users. The system architecture contains an AEM author, two AEM publishers, two publish Dispatchers, and a centrally managed load balancer. The publishers serve some content that cannot be cached.

Which two actions should the Architect take to meet these requirements? (Choose two.)
* Connect each publish Dispatcher to one AEM publish
* Use each publish Dispatcher to load-balance to both AEM publishers

* Deploy software packages by replicating them from author to publishers
* Configure the centrally managed load balancer to connect directly to the AEM publisher that is not being dedKyed to
* Deploy software package to AEM Publishers one by one

NEW QUESTION 43

A client has an existing AEM site using components that proxy AEM WCM Core Components. The site uses simple page authoring without referenced content, The client wants to create a new experience on another marketing channel. The plan is to use as much of the existing page content as possible to avoid refactoring the current content and to maintain consistency across channels.

Which AEM capability should an Architect use to meet these requirements?
* Experience Fragments
* Content Fragments
* Assets API
* Sling Model Exporter

NEW QUESTION 44

An existing AEM sites platform will receive the latest service pack. The service pack includes functional and non-functional fixes such as security patches. Which action should the Architect take to make sure the update is successful?
* Advise the customer to request Adobe to install the fixes directly on production since they are prechecked.
* Install the service pack m staging and ensure that all the bundles are up and running, then deploy to production.
* Identify the packages affected by the service pack after installing them into production and monitor them.
* Do a full staging of the service pack including a regression test, if passed, deploy to production.

NEW QUESTION 45

A customer is migrating from their On-Premises AEM 6.4 instances to AEM as a Cloud Service. Next to the required code refactoring, a content migration of approximately 100,000 pages needs to be performed. The customer wants the content freeze period to be limited so that editors can continue to do content actions as long as possible.

Which two recommendations should the Architect make for the migration of the content pages? (Choose two.)
* Migrate the content using Lazy Content Migration approach
* Upscale the memory of the On-Premise AEM instance
* Migrate content deltas using a query-based packaging tool
* Ensure sufficient storage space on the On-Premise AEM instance
* Migrate the content using the Content Transfer Tool

Difficulty in writing Adobe AD0-E117: Adobe Experience Manager Architect Master Exam

Certificate-questions thinks that Adobe Experience Manager Architect Master AD0-E117 provides practical questions that are not only practical but simple to utilize and comprehend. We trust in our customers' self-assessment, and we do not compromise on this.

This enables our customer to prepare for Adobe AD0-E117 examination questions. If someone wants to get the greatest results in the Architect Masters examination of Adobe Experience Manager, they have to go to the PDF and online test engine for certificate-questions **Adobe AD0-E117 exam dumps**. As we said before, as we believe in customer easy, we ensure our supplied AD0-E117 exam dumps may be used on any appliance so that all customers are free to contact us for the Adobe Experience Manager AD0-E117 test. Our customers may also take the same test before taking the Adobe AD0-E117 accreditation process. It will offer them an idea of the true AD0 E117 exam and will not appear unfamiliar to them to the real Adobe Experience Manager Architect Master test. Our Architect Master questions from our Adobe Experience Manager are accessible in a wide range of formats, so that you can obtain every notion about the new AD0-E117 exam and can manage the time within the reference frame. Certification customers of Adobe AD0-E117 will not only be able to pass the test by looking for guidance from us but will also be able to master time management. All students need to do is glance at the information given for AD0-E117 examination questions.
