Latest [Jun 22, 2022] Real SAP C\_S4FCF\_1909 Exam Dumps Questions

C\_S4FCF\_1909 Dumps To Pass SAP Certified Application Associate Exam in One Day (Updated 82 Questions)

SAP C\_S4FCF\_1909 Certification Exam Topics:

Topic Areas  
Topic Details, Courses, Books  
**Real time Replication in Central Finance > 12%** Describe prerequisites to activate real time replication. Start real time replication. Correct errors of real time replication. Explain the document flow functionality of Central Finance. Perform document drill back from target system to source system. S4F61 (SAP S/4HANA 1909) **SAP Master Data Governance 8% - 12%** Describe MDG central governance and mass processing. Describe the general concepts and capabilities of SAP MDG, central governance. Activate and configure the default processes for MDG. Define MDG data models. - S4F601e S4F60 (SAP S/4HANA 1909) S4F61 (SAP S/4HANA 1909) **Central Finance Landscape Architecture < 8%** Define options to SAP S/4HANA Central Finance Architecture links source systems to the central finance system. Design SLT technical integration platform for Central Finance. Describe MDG function in Central Finance for master harmonization. Describe AIF as interface and monitoring for Central Finance. S4F60 (SAP S/4HANA 1909) **Enhancements in the Controlling Area (CO-PA, WBS) 8% - 12%** Explain improvements made when replicating from costing-based CO-PA into Profitability

Analysis in the Universal Journal. Understand account-based CO-PA COGS split in Central Finance. Define account-based CO-PA price split in Central Finance. Describe the new replication scenario for internal EC-PCA postings. Explain the simulation tool for EC-PCA and the Profit Center comparison report. Describe how WBS elements and project structures can be transferred to Central Finance to enable a central reporting on projects. S4F61 (SAP S/4HANA 1909) **Run Phase in Central Finance < 8%** Design the SAP S/4 HANA Central Finance project phases. Determine the SAP S/4HANA Central Finance pilot approach. Describe the required organizational change with SAP S/4HANA Central Finance. Determine the stakeholders involved in a Central Finance project. Define the change enablers and key success factors. Design the operation model for Central Finance, and daily operations that might be needed in Central Finance. S4F60 (SAP S/4HANA 1909) S4F61 (SAP S/4HANA 1909) **System Integration Concepts < 8%** Describe technical communications modes and processes. Design the types of communication transfer modes. Explain business scenarios and the business hierarchy used by SAP Configure RFC between two SAP systems, or non-SAP system. S4F61 (SAP S/4HANA 1909) - S4F601e **System Landscape Transformation Server (SLT) 8% - 12%** Describe options for activating data replication and how to transfer data, including how to change structures to source tables during replication. Configure client specific and cross client replication. Describe starting recording and replication. S4F61 (SAP S/4HANA 1909) **Central Finance Setup and Configuration 8% - 12%** Configure the scope for the initial load of FI/CO posting. Define decimal places for currencies. Differentiate between Key Mapping and Value Mapping. Define mapping actions for Mapping Entities. Define key mapping and value mappings. Configure Cost Object Mapping scenarios. S4F61 (SAP S/4HANA 1909)

### SAP C\_S4FCF\_1909 Exam Description:

The 'SAP Certified Application Associate - Central Finance in SAP S/4HANA' certification exam validates that the candidate possesses the fundamental and core knowledge required of the Central Finance profile. This certification proves that the candidate has an overall understanding and in-depth technical skills to participate as a member of a project team in a mentored role.

This certification exam is recommended as an entry level qualification. It is recommended as verification the consultant is ready to contribute significantly to Central Finance implementation projects. It puts the consultant in a position to be onboarded to an implementation project quickly and to contribute to the project's success right away.

This certificate is the ideal starting point for a career as a Central Finance consultant.

**NO.39** What specific mapping actions can you define for each business partner? Note: There are 3 correct answers to the question.

- \* Clear data
- \* Mapping if possible
- \* Summarized date
- \* Mapping if authorized
- \* Mapping obligatory

**NO.40** Which of the following are functions of the controller in the SAP Landscape Transformation (SLT) server?

- \* Write data to the SAP HANA system using the DB connection.
- \* Schedule replication processes.
- \* Map database structures between SAPHANA and the source system.
- \* Create repositories in the source system.

**NO.41** Your customer uses SAP ERP on any database with EHP 8, classic G/L with accounts approach, and more than

10 years' worth of data. What can you do in separate projects before the SAP S/4HANA conversion to reduce the complexity of your conversion project? There are 2 correct answers to this question.

- \* Implement an archiving project.

- \* Launch customer-vendor integration for the business partner.
- \* Adopt new Asset Accounting.
- \* Create a backup.

**NO.42** Which step is automatically performed in Asset Accounting when you perform the year-end balance carryforward?

- \* The depreciation run (program FAA\_DEPRECIATION\_POST) for period 12 of the fiscal year is triggered.
- \* The year-end closing (program RAJABSOO) is executed and the previous fiscal year is closed.
- \* The plan/actual variance is calculated for the annual capital expense reporting on statistical cost elements (type 90).
- \* The depreciation for the new year is calculated and maintained per asset in table FAAT\_PLAN VALUES.

**NO.43** You have an SAP NetWeaver Business Warehouse (SAP NetWeaver BW) on SAP HANA system installed on multiple nodes. Which of the following information objects are stored on the master node?

- \* ABAP system tables
- \* Persistent Staging Area (PSA) tables
- \* DataStore Objects (DSOs)
- \* SAP NetWeaver BW master data tables

**NO.44** Which objects uses a direct RFC connection for the initial load?

- \* FI/CO document
- \* Internal CO document
- \* Internal order
- \* Cost center

**NO.45** SAP S/4HANA can run on an SAPHANA database only. Determine whether this statement is true or false.

- \* False
- \* True

**NO.46** You need to set up an SAP Landscape Transformation configuration for Central Finance. What must you do before you can start? Note: There are 2 correct answers to this question.

- \* Create a technical user.
- \* Set up RFC destinations.
- \* Create database connections.
- \* Activate pre-delivered SAP objects.

**NO.47** Which security settings can you apply in analytic privileges?

- \* Grant access to analytic views.
- \* Restrict access within an analytic view using attribute values.
- \* Restrict access within an analytic view using measure values.
- \* Restrict access to hierarchies.

**NO.48** During loading of data into SAP HANA you want to filter the source data. Where can you apply the filters?

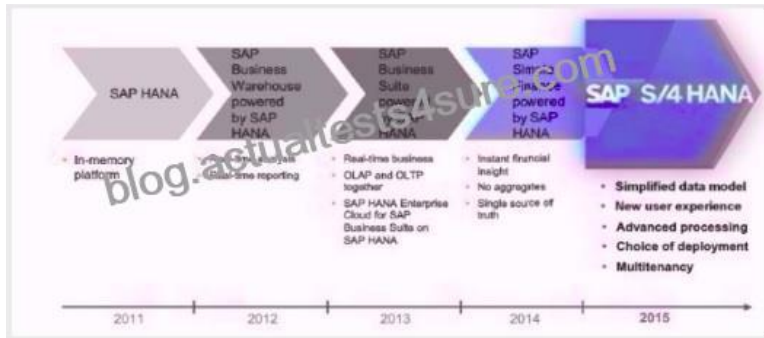

- \* In a SQL WHERE clause in SAP Landscape Transformation (SLT)
- \* In a query transformation in SAP BusinessObjects Data Services
- \* In a row generation transformation in SAP BusinessObjects Data Services
- \* In an ABAP code rule in SAP Landscape Transformation (SLT)

**NO.49** Existing programs and interfaces can still be used access via compatibility views:

- \* Read access is automatically re-directed to the universal journal as the new single source of truth.
- \* Read access from custom ABAP programs or reports to prior tables will work as before.

**NO.50** SAP S/4HANA, Next Generation Business Software consists of

- \* SAP HANA.
- \* SAP Business Warehouse powered by SAP HANA.
- \* SAP Simple Finance powered by SAP HANA.
- \* SAP Business Suite powered by SAP HANA.

**NO.51** How can you map internal orders? Note: There are 2 correct answers to this question.

- \* 1:n relation
- \* N:1 relation
- \* 1:1 relation
- \* N:m relation

**NO.52** What is true about Universal Journal extensibility?

- \* P&L line extension using CO-PA capabilities is provided.
- \* It can be extended easily with customer fields for all components (G/L, CO, AA, ML).
- \* The new HANA based reporting can not access the customer fields of all components (G/L, CO, AA, ML).
- \* The standard General Ledger coding block extensibility.

**NO.53** Which delivered role is mandatory for a system administrator in SAP HANA?

- \* CONTENT\_ADMIN
- \* SAP\_ALL
- \* SYS\_ADMIN
- \* IC\_MODELER

**NO.54** Universal Journal Entry, which ones are correct?

- \* ACDOCA table has 6 digit field for line item numbering.
- \* ACDOCA table has 23 digits for currency fields.
- \* The new journal entry consists of a header (table BKPF) and the respective items (table ACDOCA).
- \* ACDOCA table contains all fields needed for G/L, CO, AA, ML, PA.
- \* All cost elements except secondary cost elements are G/L accounts.
- \* Multi-GAAP capability through RLDNR dimension.

**NO.55** When must you create a calculation view in SAP HANA?

- \* When key figures span across tables.

- \* When you need calculations before aggregations.
- \* When you need to perform join operations.
- \* When you need to perform a union of base tables.

**NO.56** Which entities are contained in an initial load group? Note: There are 2 correct answers to this question.

- \* Profit center
- \* Functional area
- \* Company codes
- \* logical system
