Miss—————–

The availability of the remote cluster in the peering relationship shows “Partial.” Referring to the exhibit, what is the reason for this status message?

- * The remote cluster does not have its cluster license applied properly.

- * The Intercluster LIFs on the local cluster are unavailable and not able to communicate to the remote cluster.

Some nodes in the local cluster are not able to contact some or all nodes in the remote cluster.

Partial – The peer cluster availability status will be Partial only if some nodes in the local cluster are not able to contact some or all nodes in the peer cluster.
