How to book the VMware 1V0-21.20 PSE: Associate VMware Data Center Virtualization Exam

These are the procedures to register the 1V0-21.20 PSE - Virtualization Data Center examination.

Step 1: Visit VMware Exam Record- Step 2: Login to VMware account- Step 3: Choose the local center depending on a nation, day and hour and confirm with a form of payment. **NEW QUESTION 51**

An administrator must ensure that virtual machines have their initial placement performed automatically and that migration recommendations are displayed but not applied.

Which vSphere DRS Automation Level should the administrator use?

- \* Aggressive
- \* Manual
- \* Partially Automated
- \* Fully Automated

### NEW QUESTION 52

Which feature must be enabled to use vSphere Fault Tolerance?

- \* vSphere DRS
- \* vSphere Replication
- \* vSphere HA
- \* vSAN

### NEW QUESTION 53

Which feature must an administrator use to revert back to the previous

of a VM template?

- \* VM Snapshots
- \* Content Library
- \* VMware Tools
- \* Storage vMotion

### NEW QUESTION 54

Which configuration setting ensures that virtual networks on a virtual switch are isolated from each other?

- \* Port ID
- \* Network Label
- \* Security Policy
- \* VLAN ID

### NEW QUESTION 55

Which vSphere feature provides continuous availability, allowing users to protect any virtual machine from a host failure with no loss of data or connectivity?

- \* vSphere vMotion
- \* Enhanced vMotion Compatibility
- \* vSphere Fault Tolerance
- \* vSphere HA

### NEW QUESTION 56

An administrator needs to update an OS running on a virtual machine and wants to be able to revert to the previous state if any issues occur after the update.

Which steps should be used in the vSphere Client to meet this requirement?

- \* Right click on the VM > Migrate

- \* Right click on the VM >Snapshots > take Snapshot
- \* Right click on the VM > Clone to Template
- \* Right click on the VM > Clone to virtual Machine

#### **NEW QUESTION 57**

An administrator is tasked with evacuating a storage array because it has been replaced.

Which feature meets this requirement?

- \* Predictive DRS
- \* Proactive HA
- \* Storage vMotion
- \* vSphere vmotion

#### **NEW QUESTION 58**

A system administrator has to configure several virtual machines for different business units. The administrator needs to enable features that allow overcommitment of resources while adhering to the business requirements and different department performance SLAs.

Which two features should the administrator enable to achieve this goal? (Choose two.)

- \* vSphere Distributed Power Management
- \* vSphere Fault Tolerance
- \* vSphere Resource Pools
- \* vSphere High Availability
- \* vSphereStorage I/O Control

#### **NEW QUESTION 59**

An administrator has noticed an increase in network latency when powered-off virtual machines are migrated.

Which VMkernel adapter can the administrator use to reduce this latency?

- \* vSAN
- \* vSphere Replication
- \* Provisioning
- \* vMotion

#### **NEW QUESTION 60**

A company has a few virtual machines running software XYZ that only support the current CPU type. With hardware refresh, the company wants leverage the new processor features for all VMs except for VMs Running software XYZ.

Which feature meets this requirement?

- \* Per-VM EVC
- \* vSphere High Availability
- \* Cluster-Level EVC
- \* vSphere vmotion

### NEW QUESTION 61

An administrator is working on a cloud migration project. The project has a requirement to check the EVC mode for virtual machines (VMs) hosting an application.

How can the administrator find the EVC details for these VMs?

- \* Select Host > VMs > Show/Hide Column > EVC Mode
- \* Right click VM > Migrate > Change storage only > Select Datastore > Next > Finish
- \* Power off VM > Configure > VMware EVC
- \* Right click VM > Migrate > Change compute resource only > Select Host > Next > Finish

### NEW QUESTION 62

An administrator has observed an alert message in the vSphere UI related to a host's storage sensor hardware. Where should the administrator look for more information related to this alert?

- \* Menu > Lifecycle Manager > Baselines
- \* Host > Monitor > Skyline Health
- \* Host > Monitor > Hardware Health > Storage Sensors
- \* Host > Monitor > Hardware Health > System Event Log

### NEW QUESTION 63

Which two storage protocols can a virtual infrastructure operator use to create a VMFS datastore? (Choose two.)

- \* Fibre Channel
- \* NFS
- \* iSCSI
- \* CIFS
- \* SMB

### NEW QUESTION 64

Which two configuration options can only be enabled on distributed

switches?

- \* NetFlow
- \* Port Mirroring
- \* NIC Teaming
- \* Load Balancing
- \* VLAN IDs

### NEW QUESTION 65

An administrator has been asked to keep domain controllers running

on separate ESXi hosts.

Which type of VM/Host rule must be configured to meet this

requirement?

- \* Keep Virtual Machines Together
- \* Virtual Machines to virtual Machines
- \* Virtual Machines to Hosts
- \* Separate Virtual machines

#### **NEW QUESTION 66**

Which software-defined, object-based storage solution provides shared storage for vSphere clusters without using traditional external storage?

- \* iSCSI
- \* vSAN
- \* NFS
- \* vVOLS

#### **NEW QUESTION 67**

An administrator needs to migrate a powered off virtual machine to

another cluster with no shared storage.

Which option should the administrator select for a successful migration?

- \* Change storage only
- \* Migrate virtual machines(s) to a specific datacenter
- \* Change computer resource only
- \* Change both compute resource and storage

#### **NEW QUESTION 68**

Which vSphere feature mitigates common optimization challenges?

- \* vSphere Trust Authority
- \* vSphere High Availability
- \* vSphere DRS
- \* vSphere Fault Tolerance

The benefit of obtaining the VMware 1V0-21.20 PSE: Associate VMware Data Center Virtualization Exam

## Certification

This certificate certification gives you advantage over other peers. Besides the understanding of 1V0-21.20 PSE Virtualization Data Center Exam. This certification will assess your abilities and knowledge on the problem solving and integration of UEM Workspace. It helps you transform your profession into unified solutions for endpoint management. Statistics on the website of VmWare Certification show that 85% of recruitment managers include certification in their criterion of recruitment. The biggest advantage to get a VmWare certification is that it tells prospective employers/leasing managers that you are the best choice for the position.
