SAP Certified Application Associate Dumps C_SEN_2205 Exam for Full Questions - Exam Study Guide

NEW QUESTION 28

What is the purpose of the compound document generation function? Note: There are 3 correct answers to this question.

- * Merge different contents from a project into one document.
- * Merge different contents from a group into one document.
- * Merge different contents from a workarea into one document.
- * Merge SAP Enable Now contents and external contents into one document.
- * Merge different contents from a book into one document.

NEW QUESTION 29

Your customer has created a content structure that includes different languages, processes, roles and courses. The customer wants to grant access to the content via Library on a web server but does not know how to publish it as a single deployment without redundancies. Which solutions would you suggest? Note: There are 3 correct answers to this question.

- * Provide pre-filtered links to show only language-related content.
- * Distribute deep links to sub-trees of the structure for different target groups.
- * Create and provide filters for the library before deploying the complete structure.
- * Use the Included Dependent Objects option in the publishing rule wizard.
- * Define Manager tags per target group and tag the content accordingly.

NEW QUESTION 30

What major tasks must be accomplished prior to creating a SCORM package for a customer's Learning Management System (LMS)? Note: There are 2 correct answers to this question.

- * Create required documentation.
- * Build course structure.
- * Merge books and projects.
- * Configure playback settings.

NEW QUESTION 31

What is the purpose of recognition and re-recognition validation? Note: There are 3 correct answers to this question.

- * To find out what content types to produce for which target application
- * To sell additional SAP Enable Now components
- * To find out if custom profiles need to be created
- * To set the customer expectations to a realistic level regarding recognition and re-recognition
- * To provide a training plan for authors to avoid authoring limitations

NEW QUESTION 32

What are SAP best practices in a knowledge content production scenario? Note: There are 2 correct answers to this question.

- * Cover the entire end-to-end process in a single recording.
- * Use metadata and tagging to keep it maintainable.
- * Keep the content granular and avoid redundancies.
- * Use a separate workarea for each project.

NEW QUESTION 33

Which component allows you to publish to Manager AND a Learning Management System AND web servers?

- * Web Editor
- * Producer
- * Desktop Assistant
- * Instant Producer

NEW QUESTION 34

What are characteristics of workflows in the content development process? Note: There are 3 correct answers to this question.

- * Workflows are assigned at the workarea level only.
- * Workflows may be defined for any content development process.
- * Multiple workflows may be available for use in a single workarea.
- * All statuses must be used in each workflow created.
- * Only one workflow may be assigned to a single SAP Enable Now object.

NEW QUESTION 35

How can you address a pre-filtered view of a structure in a published library?

- * By cloning the structure and deleting the unwanted duplicates
- * By adding the end user filter directly to library.html
- * By activating the author filter and applying it for end users
- * By adding the filter-specific library.txt infix to the URL

NEW QUESTION 36

What must you consider when you customize resources? Note: There are 2 correct answers to this question.

- * Assign customizing permissions to all authors.
- * Finish customization before content production.
- * Modify the existing default styles instead of creating customer specific styles.
- * Do NOT modify standard style resources.

NEW QUESTION 37

What are typical characteristics of the Desktop Assistant cache? Note: There are 3 correct answers to this question.

- * It reduces the network load.
- * Only requested files will be cached.
- * The update frequency cannot be changed.
- * When a new Desktop Assistant version is installed, the cache must be deleted manually on every end user machine.
- * The lesson.js date is the base for the cache update.

NEW QUESTION 38

Your customer wants to store all SAP Enable Now documentation within SAP Solution Manager. What do you tell the customer?

- * The integration is possible with any version of SAP Solution Manager on both client side and server side.
- * The integration is done from within Manager via scheduled synchronization.
- * The integration is possible between Producer and SAP Solution Manager 7.2 but will only provide deep links to the documentations.

NEW QUESTION 39

What are the characteristics of playback settings? Note: There are 2 correct answers to this question.

- * They can be modified by end users.
- * They are saved in the trainer resource.
- * They can be set on project level by using the Project Override settings.
- * When they are appended to the URL, they override default settings.

NEW QUESTION 40

What should you consider when rolling out Desktop Assistant? Note: There are 3 correct answers to this question.

- * The Windows user profile size on the end user machine must meet the minimum requirements for caching purposes or the caching path needs to be changed.
- * Quality assurance and general responsibility need to be clarified prior to the go-live.
- * The end user needs administration rights in Windows to run Desktop Assistant.
- * The Desktop Assistant installation requires at least 20 GB of disk space on the end user machine.
- * Bandwidth and latency have to be tested on minimum requirements because slow electronic performance support will not be accepted.

NEW QUESTION 41

Where can you find the instructions to configure Web Assistant for SAP S/4HANA?

- * In the Web Assistant Authoring Guide on SAP Help Portal
- * In the SAP S/4HANA Configuration Guide on SAP Help Portal
- * In the Troubleshooting Guide in the SAP Enable Now Info Center
- * In the Web Assistant Integration Guide on SAP Help Portal

NEW QUESTION 42

You open an outdated workarea without Manager connection in Producer of your on-premise edition of SAP Enable Now. How do you migrate the workarea to the current version?

- * You can use the Migrate function in the Tools menu.
- * You can use the Migrate function in the context menu of the Resource object.
- * You will be automatically prompted by a dialog to migrate.
- * You can use the Migrate function in the Workarea menu.
