# Enhance your career with 2V0-62.21 PDF Dumps - True VMware Exam Questions [Q20-Q34

Enhance your career with 2V0-62.21 PDF Dumps - True VMware Exam Questions New (2023) Download free 2V0-62.21 PDF for VMware Practice Tests

Best Solution for the preparation of VMware 2V0-62.21 Exam? **VMware 2V0-62.21 exam dumps** PDF is the best way to prepare for your exam because practice test provides you a sure shot opportunity of passing the 2V0-62.21 Certification Exam. This examination guide has been designed by experts after an in-depth analysis of professional's recommendations and students feedback. These guides are useful in all regards as they contain questions and answers prepared on the pattern of the exam and even give hints and explanation wherever required.

What to Expect in the VMware 2V0-62.21 Exam? **Here's What You Need To Know Before Attempting The VMware 2V0-62.21 Exam A Study guide about the preparation process for the VMware 2V0-62.21 Exam**
The VMware 2V0-62.21 exam is an advanced certification offered by VMware concerning the components of a Vmware vSphere environment and its management. I've been preparing for my 2V0-62.21 exam, and I figured it might be a good idea to share my experience as a study guide for others who are also getting ready for their VMware 2V0-62.21 exam. Given how much time is needed for studying, you're probably wondering where to start. I had the same question, so I created my own study guide to make your life easier in hopes that it helps you as well!
Preparation is the key to doing well in any exam. It is obvious that but every student may not know how to prepare effectively.

Therefore, we have some points listed below in order to help you out in your preparations. **VMware 2V0-62.21 exam dumps** are proven track record of helping students pass their exams.

In this guide, I have prepared a list of resources that will help you in your preparation for the 2V0-62.21 Exam. To start off, the exam derives its name from VMware vSphere 6.0 which is the latest version of their solution for the virtualization platform.

Q20. What two features of Hub Services can be enabled without enabling Workspace ONE Access and having the authentication mode set to Workspace ONE UEM? (Choose two.)

* enable SSO for applications
* notifications for iOS and Android
* Hub Virtual Assistant Chatbot
* Hub Catalog layout
* enable People Search

Q21. An administrator has received complaints from end-users not receiving consistent email notifications on their iOS devices. Email is configured on the end-users devices using only the VMware Boxer email client. Boxer is only configured from Workspace ONE to use Office 365.

What can the administrator do to resolve the inconsistent email notifications?

* Configure VMware ENS v2 to provide consistent notification experience.
* Configure SEG v2 to provide a better notification experience.
* Configure Mobile SSO for VMware Boxer to prevent users from entering credentials.
* Configure VPN tunnel with a Boxer configuration, so that it is able to connect to the internal network.

https://docs.vmware.com/en/VMware-Workspace-ONE-UEM/services/WS1_ENS2_Doc/GUID-AWT-INTRODUCTION-ENSV2.html

” The Workspace ONE Boxer provides notifications about your emails by running in the background. Due to platform limitations, Boxer can only run in the background for a limited time. Email Notification Service (ENS2) provides a solution to deliver notifications to the user’s device when Boxer is not running.”

Q22. Which three Workspace ONE Edge Services are included in Unified Access Gateway? (Choose three.)

* AirWatch Cloud Connector
* Content Gateway
* Secure Email Gateway
* Workspace ONE Intelligence Connector
* VMware Tunnel

Q23. Which administrative console is used to change to an organization logo (branding) in the Intelligent Hub Catalog?

* Workspace ONE Access
* Workspace ONE Hub Services
* Workspace ONE
* Workspace ONE UEM

Q24. When creating Workspace ONE Intelligence Dashboards, what helps visualize collected data?

* Elements
* Widgets
* Gizmos
* Snapshots

Q25. An administrator is having difficulties with an AirWatch Cloud Connector (ACC) server connecting to an AirWatch Cloud

Messaging (AWCM) server for authentication.

The administrator has confirmed:

DNS records are correct and resolvable from a different machine

ACC can connect to the internet

What should the administrator check on the local ACC?
* Windows Registry
* VAMI configuration
* Windows Version
* Host File

Q26. Which is required during installation of the Workspace ONE Intelligence Connector service?
* Workspace ONE Intelligence Connector service must be installed on the AWCM Server.
* Workspace ONE Intelligence Connector must be installed on the Console Server.
* Workspace ONE Intelligence Connector service must be installed on the Device Services Server.
* Workspace ONE Intelligence Connector must be installed on its own server.

Q27. Which three features from Workspace ONE Hub Services are Cloud only? (Choose three.)
* Templates
* Hub Virtual Assistant
* People Search
* Passport
* Employee Self-Service Support
* Custom Tab

Q28. Which of the following authentication methods is needed to be enabled/configured for an administrator to leverage Day Zero Onboarding?
* Token Auth Adapter
* Workspace ONE UEM External Access Token
* FID02
* Certificate-based authentication
* Verify (Intelligent Hub)
Reference:

https://docs.vmware.com/en/VMware-Workspace-ONE/services/VMware_Workspace_ONEHub_onboarding_pre-hires/GUID-51B 88155-B9AA-4B78-A6E6-7F59D74F9CED.html

Q29. Which domain attribute must be included to meet the SAML assertion requirement for Just-in-Time (JIT) provisioning of users in the Workspace ONE Access service?
* distinguishedName
* userName
* firstName
* lastName
https://docs.vmware.com/en/VMware-Workspace-ONE-Access/services/ws1_access_service_administration_cloud/GUID-06A8E16 5-8A04-411B-8C96-9BEC0E283D18.html – The SAML assertion must include the userName attribute.

When Just-in-Time user provisioning is enabled for a third-party identity provider, users are created or updated in the Workspace

ONE Access service during login based on SAML assertions. SAML assertions sent by the identity provider must contain certain attributes. The SAML assertion must include the userName attribute.

Q30. Which two Workspace ONE edge services on Unified Access Gateway does VMware require to use 3rd party SSL certificates? (Choose two.)
* Content Gateway
* Tunnel Per-App VPN
* Device Services
* Tunnel Proxy
* Secure Email Gateway

Q31. A customer is managing only iOS devices using Workspace ONE. They would like to begin managing Android devices.

What would be the first step an administrator needs to complete to begin managing Android Devices?
* Download and deploy Workspace ONE Unified Access Gateway.
* Complete Android EMM registration from Workspace One Console.
* Download and deploy Workspace ONE Access Connectors for Android devices.
* Configure a Workspace ONE AirLift Server-side Connector.

Q32. A Workspace ONE UEM administrator is migrating collections, applications, and policies from SCCM to Workspace ONE.

When using AirLift, which three of the following must the administrator allow AirLift to access on the ConfigMgr server? (Choose three.)
* Port 443 or specified TLS port if Secure Connection is configured
* WinRM port (typically 5985)
* Port 3268 or the specified Global Catalog port
* Port 389 for Active Directory
* Interactive Login Permissions

Q33. An administrator is concerned with data loss on Workspace ONE managed endpoints.

Which three configurations should be enabled to further improve the device security posture? (Choose three.)
* Configure compliance policies to monitor rooted and jailbroken devices.
* Configure compliance policies to monitor Roaming Cell Data Usage.
* Enable device-level data encryption.
* Enable SMTP integration.
* Enable verbose logging.
* Enable Data Loss Prevention policies.

Q34. When creating third party identity providers in Workspace ONE Access, which two SAML assertion components can be used to identify the user? (Choose two.)
* NameID Element
* SAML Attribute
* SAMLEntityID
* NameID Signature
* SAML Issuer
https://docs.vmware.com/en/VMware-Workspace-ONE-Access/20.01/ws1_access_authentication/GUID-0C459D5A-A0FF-4893-87 A0-10ADDC4E1B8D.html SAML Metadata Select how the user is identified. The identifier sent in an inbound SAML Assertion can be either sent in the Subject or in the Attribute element.

– “NameID Element”. User identifier is retrieved from the NameID element of the Subject element.

– “SAML Attribute”. User identifier is retrieved from a specific Attribute or AttributeStatement element.

What are the main benefits of passing the VMware 2V0-62.21 Exam?

After obtaining the VMware 2V0-62.21 certification, you will get a lot of privileges. Then what are the benefits of getting a VMware 2V0-62.21 exam certification? Let's take a look!

More opportunities for development. Obtaining a professional certificate is an indispensable step for many people to develop in their respective fields, and it is also an important manifestation of one's own level. The acquisition of VMware 2V0-62.21 certificates can better meet the needs of enterprises for talents, and also bring more opportunities for promotion and salary increase to candidates. The acquisition and application of certificates have become an important symbol to measure personal ability, which can promote candidates to enter better positions and get higher salaries, so it is well known that the VMware 2V0-62.21 certificate has become a good standard to measure and evaluate one's IT skills!Learning efficiency. We know that obtaining the certificate is very difficult, so you really need our help! Our material contains questions and correct answers to VMware 2V0-62.21 Exam.Higher salary. Getting the certificate can prove that you are competent in this industry and help you find a good job with a high salary, which can make your life better and better. **VMware 2V0-62.21 Dumps** will help you to get batter job.
