

[2023] 1z0-1079-22 Exam Dumps, Test Engine Practice Test Questions [Q11-Q25]

[2023] 1z0-1079-22 Exam Dumps, Test Engine Practice Test Questions
Pass 1z0-1079-22 exam [Apr 22, 2023] Updated 57 Questions

The Oracle 1z0-1079-22 certification exam is designed for professionals who are looking to validate their skills and knowledge in Oracle's SCM Transportation and Global Trade Management Cloud 2022 implementation. This certification exam is primarily intended for individuals who have experience working with Oracle's Transportation Management and Global Trade Management solutions and are familiar with their implementation process. Candidates who successfully pass the exam will receive the Oracle Certified Implementation Professional credential, which is recognized globally and highly valued in the industry.

The Oracle 1z0-1079-22 Exam is a comprehensive exam that assesses the candidate's knowledge of various topics related to the Oracle SCM Transportation and Global Trade Management Cloud 2022. The exam covers topics such as global trade management, transportation management, order management, compliance and security, and integration with other Oracle Cloud applications. The exam consists of 60 multiple-choice questions that must be completed within 105 minutes.

NO.11 Assume that you have made changes to the Default Parameter Set. Which statement is true?

- * Regardless of your user role, you won't be able to save the changes within the Default Parameter Set without renaming it first.
- * In order to reset all the changed settings back to their original settings, select “Actions”, then “Utilities”, and then “Set Defaults” from the drop-down menu.
- * In order to reset all the changed settings back to their original settings, you should review them on the screen and be able to tell which ones have been changed, and what the default settings were.
- * In order to reset all the changed settings back to their original settings, you should delete the Parameter Set and recreate it using the Default as your template.

NO.12 Your customer has implemented OTM and has a requirement to have a selected menu to be displayed separately.

How should you assign this to a user?

- * It is a customization that OTM does not support.
- * Assign it via Manage User Access.
- * Assign it in User Preference and assign this preference to User.
- * Assign it in User Role ID.

NO.13 Select the three correct statements regarding Freight Settlement in OTM. (Choose three.)

- * Invoice checks may be printed out of OTM.
- * Rules for matching, approval, and allocation are the cornerstones of automation in Freight Settlement.
- * Freight Invoices may be created within OTM or interfaced from an external system.
- * Invoices in OTM must be tied to a shipment.
- * Freight Settlement in OTM may be used to pay invoices to carriers as well as bill customers for freight.

NO.14 At which three levels does Match Rules allow the Invoice Matching to occur? (Choose three.)

- * Shipment Ship Unit line level
- * Shipment level
- * Order line level
- * Shipment Ship Unit level
- * Shipment location level

NO.15 Which two statements about shipment statuses are true? (Choose two.)

- * ENROUTE_DELAYED – indicates that the shipment was unable to travel on the planned route, and has taken a detour.
- * ENROUTE_NOT_STARTED – indicates that the shipment has not been picked up from the initial pickup stop yet.
- * ENROUTE_ENROUTE – indicates that the shipment is moving from one location to another.
- * ENROUTE_UNLOADED_PARTIAL – indicates that the shipment has reached the final destination and is in the process of being unloaded.
- * ENROUTE_DIVERTED – indicates that the shipment was delayed in leaving the previous location due to the late pickup time, and will be late arriving to the destination location.

NO.16 How should you set up permissions for users to access data in other domains?

- * Assign User Preference via Manage User access.
- * Use Domain Grants.
- * Use Insert User Role in VPD Profile.
- * Assign Access Control List in User Role.

NO.17 Which three options are supported in Oracle Global Trade Management (GTM) when creating a Declaration? (Choose three.)

- * One Trade Transaction to many Declarations
- * One Order Release to one Declaration
- * One Trade Transaction to one Declaration
- * Many Trade Transactions to one Declaration
- * One Order Release to many Declarations

NO.18 You have created the following Workflow Agent in your OTM test environment and you want to move it to your OTM production environment:

Agent Name: SHIPMENT NOTIFY

Event: LATE_SHIPMENT (New Custom Event)

Saved Condition: SHIPMENT IS INBOUND (New saved condition)

Actions:

IF SHIPMENT STATUS IS NOT CANCELLED (IF uses a new Saved Condition)

SET INTERNAL STATUS: ENROUTE_DELAYED ENDIF

Which Screen Set ID's do you have to use in your Migration Project?

- * AGENT,EVENT, SAVED_CONDITION, SAVED_QUERY
- * AGENT, CUSTOM_EVENT, SAVED_CONDITION, SAVED_QUERY
- * AGENT, AGENT_EVENT, SAVED_CONDITION_QUERY
- * AGENT, CUSTOM_EVENT, SAVED_CONDITION
- * AGENT, AGENT_EVENT, SAVED_CONDITION, SAVED_QUERY

NO.19 You've executed a CSV upload in which you have modified some existing records, and created some new records. There were no errors during the upload. However, OTM is still retrieving only the old data, not the new data that was just uploaded.

Select the action that you can take to address this.

- * You must reboot the database server in order to commit the changes.
- * Rerun the upload, this time making sure that you specify the `“dd”` command.
- * You should clear the OTM cache.
- * Rerun the upload, this time making sure that you specify the `“ii”` command.
- * Rerun the upload, this time making sure that you specify the `“uu”` command.

NO.20 Identify the incorrect option about the commodity setup.

- * Incompatible commodities can be captured while defining a commodity.
- * Specific temperature controls cannot be assigned while defining a commodity.
- * You can select transportation modes while defining a commodity.
- * You can link commodity with equipment types while defining a new commodity.

NO.21 When defining a Region, there is a parameter called `“Representative Location”`;

When is it appropriate to set a value for `“Representative Location”`?

- * Do it if you are using Cooperative Routing and you want the location to be considered in the cooperative routing aggregation.
- * Use this parameter to define a range of values that will be included in the region you are defining, such as a range of zip codes.
- * Do it when you want to create a template Region that you can use to quickly create other regions in the future.

* Representative Location is the location of the person assigned to the LOGISTICS Role for the region.

NO.22 Which option represents Original Invoice Cost field at Shipment?

- * Contains the initial invoice amount adjusted by any additional charges or invoices that the carrier later sent to you
- * Total Approved Cost on a sell Shipment
- * The Initial invoice amount received from the carrier
- * Total Actual Cost minus the rebate amount as defined in the Secondary Charge Rules

NO.23 Identify the object in which Saved query cannot be used.

- * Finders (Search pages)
- * Automation Agents
- * Business Monitors
- * Reports

NO.24 When creating a new Declaration type in Global Trade Management (GTM), which three processes may need to be configured depending on the requirements of the local customs authority? (Choose three.)

- * Set up a License Code that defines whether a license is incremented or decremented for the Trade Transaction.
- * Set up a data configuration that defines the data required to be copied from the Transaction onto the Declaration.
- * Define a constraint set with grouping criteria that identifies how to combine Trade Transactions into a Declaration.
- * Create aggregation criteria that consolidate Transaction Lines, based on parameters such as tariff code or country of origin, into fewer lines on the final Declaration.

NO.25 After creating a report, which step must occur in order to register the report for execution within Oracle Transportation Management?

- * Create a new Data Source pointing to the OTM database.
- * Select the Report System and specify the Report Path.
- * Create a new Data Source pointing to the BI Publisher database.
- * Make a directory `“BIPCatalogUtil”` under `[BI Publisher Home]`
