Changing the Concept of H12-311_V3.0 Exam Preparation 2023 [Q176-Q194

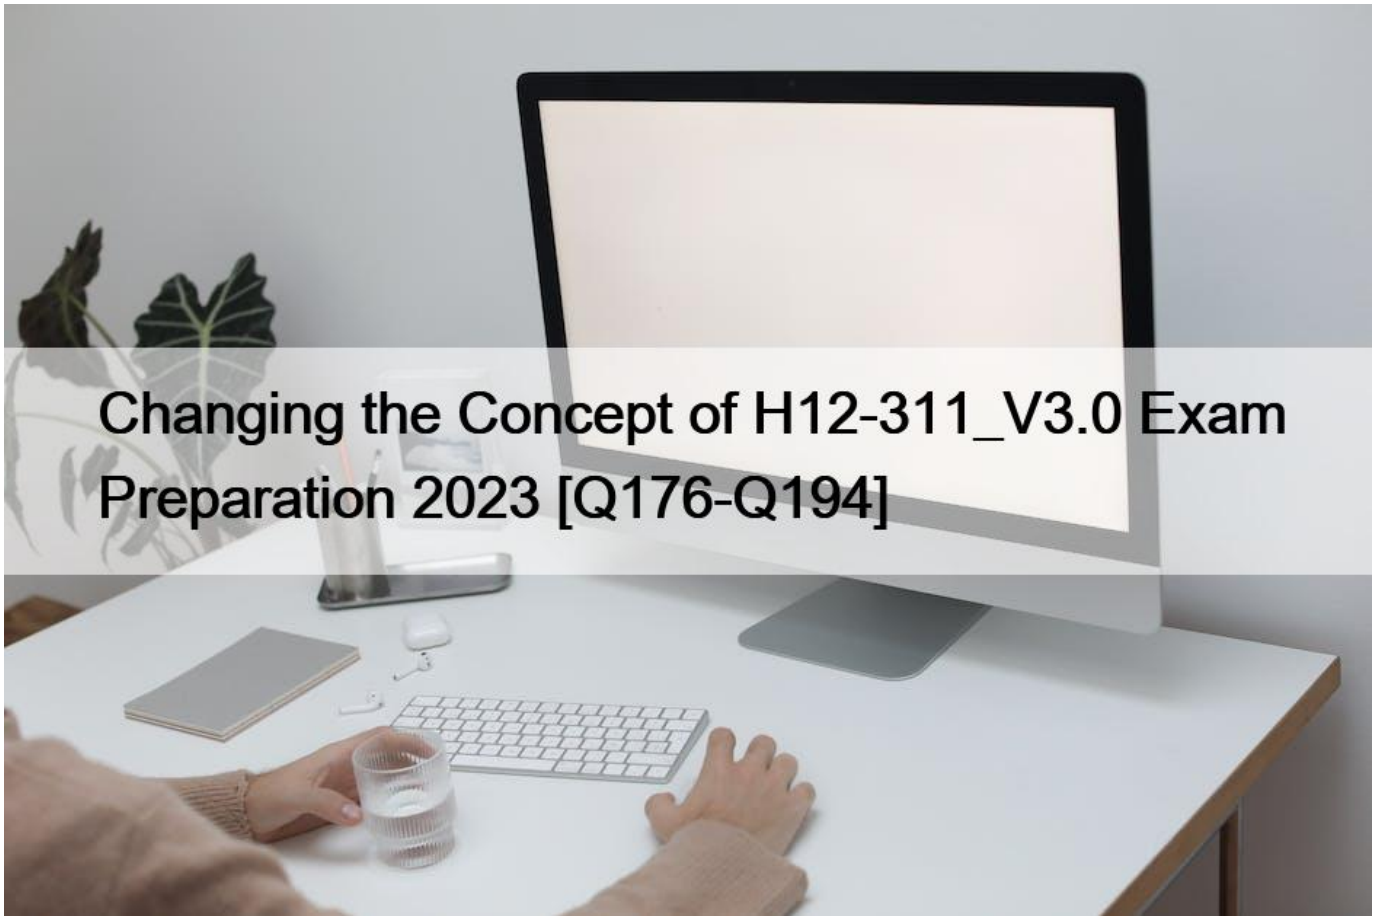

Changing the Concept of H12-311_V3.0 Exam Preparation 2023
Getting H12-311_V3.0 Certification Made Easy! Get professional help from our H12-311_V3.0 Dumps PDF

The Huawei H12-311_V3.0 exam is an important certification for professionals in the field of wireless LAN technologies. The certification program covers a wide range of topics and is designed to equip professionals with the skills and knowledge required to plan, design, deploy, and manage wireless LAN networks. The certification is highly valued in the industry and is recognized by many organizations, making it a valuable asset for professionals seeking to advance their careers in this field.

The Huawei H12-311_V3.0 Exam consists of 60 multiple-choice questions and lasts for 90 minutes. The passing score is 600 out of 1000 points. The exam is available in multiple languages, including English, Chinese, Russian, French, and Spanish. Candidates can take the exam at any Huawei Authorized Learning Partner or Pearson VUE testing center worldwide.

The Huawei H12-311_V3.0 (HCIA-WLAN V3.0) Exam is targeted towards IT professionals who are responsible for WLAN planning, design, deployment, and maintenance. This includes network engineers, network administrators, network technicians, and other IT professionals who work with WLANs. The exam covers a wide range of topics such as WLAN architecture, WLAN

planning and design, WLAN implementation and maintenance, WLAN security, and troubleshooting.

QUESTION 176

Point-to-point wireless bridges can be used to connect two networks located at different locations. In the wireless backbone connection, they are set to different channels. Root AP and Leaf AP Should be set
* True
* False

QUESTION 177

because 802.11a The maximum rate supported is the same as 802.11g. The maximum rate supported is the same, so 802.11a Protocol is backward compatible 802.11g Agreement.
* True
* False

QUESTION 178

Compared with 802.11a/b/g, the technical advantages of 802.11n include which of the following aspects ()?
* The maximum theoretical transmission rate is increased to 600Mbps
* Backward compatible with 802.11a/b/g protocol
* Support MIMO technology
* The other three items are correct

QUESTION 179

Which is the longest interval between 802.11 frames ()?
* SIFS
* IFS
* DIFS
* PIFS

QUESTION 180

It can be connected with the antenna via ().
* Network cable
* CATV coaxial cable
* Power cord
* 50 ohm RF coaxial cable
Coaxial cable

QUESTION 181

If it is turned on on the switch PoE The function of this, you can no longer access traditional equipment on these interfaces.
* True
* False

QUESTION 182

2.4 GHz How many channels () can the frequency band be divided into at most?
* 14
* 13
* 11
* 3

QUESTION 183

Originally only supported TKIP The wireless network card can be upgraded through the driver to support AES encryption.
* True
* False

QUESTION 184

What frame does the wireless client actively scan to obtain the surrounding wireless network information ()?
* Beacon frame
* Probe Request frame
* Authentication Request frame
* Association Request frame

QUESTION 185

The wireless LAN architecture is mainly divided into controller-based thin
* True

AP Architecture and traditional independent fat AP Architecture.
* False

QUESTION 186

Which technology belongs to the wireless metropolitan area network () below?
* 2G/3G
* WLAN
* Bluetooth
* WiMAX

QUESTION 187

For protection WLAN Security, which of the following measures can be taken? (Select 3 Answers)
* Authentication
* encryption
* System protection
* Control flow

QUESTION 188

CCMP The algorithm used for encryption is ().
* RC4
* AES
* SMS4

* Michael

QUESTION 189

802.11 In the frame, RTS and CTS What is the interframe interval between ()?
* SIFS
* IFS
* DIFS
* PIFS

QUESTION 190

Which of the following agreements are IEEE customized 802.11 standard() ? (Select 3 Answers)
* 802.11a/b/g/n
* 802.11i
* 802.1X
* 802.11s

QUESTION 191

Regarding the functional characteristics of AP6010SN, which of the following statements is correct is ().

(Select 2 Answers)
* AP6010SN is an indoor distributed AP, which only supports working in the 2.4GHz frequency band
* AP6010SN has an Ethernet interface and supports 802.3af PoE power supply standard
* AP6010SN supports WDS function, which can realize point-to-point and point-to-multipoint wireless bridging
* AP6010SN not only has a built-in antenna, but also an external antenna, which is very convenient

QUESTION 192

Among the following encryption methods, the most secure is ()
* Plaintext encryption
* WEP encryption
* TKIP encryption
* CCMP encryption

QUESTION 193

Which of the following functions does the Huawei WLAN planning tool have ()?

(Select 3 Answers)
* Support automatic identification of obstacles
* Support the division of general coverage areas and key coverage areas
* Support automatic deployment of AP locations
* Support exporting standardized WLAN planning reports

QUESTION 194

When a hardware failure occurs in an AP in the network, in order to avoid data reconfiguration, the user can quickly complete the AP replacement by configuring the AP.

replace.

* True

* False
