[Sep 10, 2023 Latest Questions ACP-120 Guide to Prepare Free Practice Tests Reliable ACP-120 Dumps Questions Available as Web-Based Practice Test Engine

The ACP-120 certification exam is a valuable credential for Jira Cloud Administrators who want to demonstrate their expertise in managing Jira Cloud instances. ACP-120 exam tests candidates on a range of topics related to Jira Cloud configuration and management. Candidates who pass the exam can demonstrate their ability to manage projects effectively using Jira Cloud.

NEW QUESTION 12

Your organization uses Jira Software and Confluence. Dave is a new employee who needs the following privileges

- * Approve access requests
- * Manage group memberships

* Update billing details

You need to give him enough but not too many privileges How should you configure Dave's user account? (Choose one)

- * As a member of the jira-administrators and confluence-administrators group
- * As a site administrator
- * As an organization administrator
- * As a member of the administrators group
- * As a trusted user

NEW QUESTION 13

You need to implement a change to several classic projects in your Jira instance

- * A defined set of users needs to be able to create issues on behalf of other users It is important to note that
- * Project administrators should be able to decide which users are able to perform this operation
- * Some projects use a shared permission scheme

Which combined use of two administrative items will meet this requirement? (Choose two)

- * Project role
- * Global permission
- * Project permission
- * Individual users
- * User group

NEW QUESTION 14

Billie needs to perform various restricted tasks in the system. You must decide whether to grant her site admin or organization admin privileges.

Identify two reasons why you must make her an organization admin (Choose two)

- * Billie needs to log in as other users for troubleshooting user accounts
- * Billie needs to enable other users to be organization admins
- * Billie needs to remove users from the site
- * Billie needs to make changes to user's profiles
- * Billie needs to enable other users to be site or product admins

NEW QUESTION 15

Currently, several groups and project roles are listed in every system event of the DEV Notification Scheme and should remain that way. A new requirement states that when DEV issues move from the status Open to status Assigned, only Project Role (Managers) should be notified. DEV project does not share any of its schemes.

Identify the event that needs to be configured.

- * Custom event
- * Issue Moved
- * Issue Assigned
- * Work Started On Issue

NEW QUESTION 16

Mira is working on a story. All of a sudden, the links to all three bugs related to the story disappeared. All issues including the story and the three bugs are tracked in the DEV project, which is a classic Software project.

Which four can explain the situation (Choose four)

- * Issue linking was disabled globally
- * Link issues permission was revoked for Mira
- * The links to the bugs were deleted
- * The linked bugs were deleted
- * Browse Projects permission was revoked for Mira
- * A security level was applied to the linked bugs

NEW QUESTION 17

In his personal settings, Bob has the setting 'Email notifications for issue activity' set to 'Don't send me email notifications'.

Identify two reasons why Bob continues to receive some email notifications from Jira (Choose two)

- * Bob has the Watch your issues setting enabled
- * Bob has been subscribed to several filters
- * Bob was added as a watcher of an issue
- * Bob is mentioned directly in a comment
- * Bob was sent an email via the Send email feature in Jira

NEW QUESTION 18

You are adding a user to Jira software using the invite users method in user management. Which setting on the page guarantees the user access to Jira software (Choose one)

- * Group membership
- * Email domains
- * Product access
- * Email address

NEW QUESTION 19

Users have been adding sensitive information into the Description field of issues in a particular project. You must secure the project by any means necessary so that only members of the Managers group can view the contents of the Description field.

Which approach will definitively satisfy this requirement? (Choose one)

- * Remove everyone from the browse projects permission
- * Remove the description field from the screen used by the view operation
- * Remove everyone except the managers group from every project permission
- * Hide the description field in the field configuration
- * Remove everyone except the managers group from every project role

NEW QUESTION 20

Your Jira cloud instance has hundreds of projects which are used only by the development team at your organization.

All projects share a single permission scheme New business requirements state:

- * Customer support staff at your organization need to view all issues in all projects
- * They also need to share filters with other users
- * They should not be granted too much access

Identify the appropriate way to configure customer support staff in Jira (Choose one)

- * As a security level
- * As a new project role
- * As a new group
- * With the Trusted role
- * With an approved domain

NEW QUESTION 21

Carlos describes his problem in the classic HR project

- * He cannot attach files to issues of Request issue type when they are in the Approved status
- * He can attach files to issues of Request issue type in any other status
- * He can attach files to every other issue issue type in every status

He asks for your help in determining the root cause Select the root cause (Choose one)

- * There is a workflow step property configured
- * He is not a member of a security level
- * The Attachment field is missing on the screen used by the Request issue type
- * He does not have the correct project permission
- * There is a workflow condition configured

NEW QUESTION 22
