With the right preparation and training, you can pass the certification exam and become a ServiceNow Certified Application Developer.

QUESTION 43

Which of the following objects does a Display Business Rule NOT have access to?
* previous
* GlideSystem
* g_scratchpad

* current
Explanation/Reference: https://community.servicenow.com/community?

id=community_question&sys_id=8af90f29db5cdbc01dcaf3231f96197c

QUESTION 44

Which one of the following is NOT a method used for logging messages in a server-side script for a privately- scoped application?
* gs.log()
* gs.error()
* gs.warn()
* gs.debug()
Explanation/Reference: https://community.servicenow.com/community?

id=community_question&sys_id=bd71cb29db98dbc01dcaf3231f9619c6

QUESTION 45

Identify the incorrect statement about Delegated Development in ServiceNow.
* Administrators can grant non-admin users the ability to develop global applications.
* Administrators can specify which application file types the developer can access.
* Administrators can grant the developer access to script fields.
* Administrators can grant the developer access to security records.
Administrators can grant non-admin users the ability to develop global applications. Delegated Development is for the scoped applications only

QUESTION 46

When a ServiceNow instance requests information from a web service, ServiceNow is the web service:
* Publisher
* Specialist
* Provider
* Consumer
Explanation/Reference: https://docs.servicenow.com/bundle/orlando-application-development/page/integrate/web-services/reference/r_AvailableWebServices.html

QUESTION 47

It is best practice to define the business requirements and the process(es) an application will manage as part of the application development plan. What are some of the considerations to document as part of the business process?
* Business problem, data input/output, users/stakeholders, and process steps
* Business problem, data input/output, project schedule, and process steps
* Business problem, data input/output, users/stakeholders, and database capacity
* Business problem, users/stakeholders, available licenses, and database capacity

QUESTION 48

A scoped application containing Flow Designer content dedicated to a particular application is called a(n):
* Spoke
* Bundle

* Action
* Flow

https://docs.servicenow.com/bundle/paris-servicenow-platform/page/administer/flow-designer/concept/spokes.html A spoke is a scoped application containing Flow Designer content dedicated to a particular application or record type. Flow Designer provides a set of core actions to automate Now Platform® processes. You can add application-specific core actions by activating the associated spoke.

QUESTION 49

In a Business Rule, which one of the following returns true if the currently logged in user has the admin role?
* g_form.hasRoleExactly(‘admin’)
* gs.hasRole(‘admin’)
* g_form.hasRole(‘admin’)
* gs.hasRoleExactly(‘admin’)

QUESTION 50

When working in the Form Designer, configuring the label of a field in a child table changes the label on which table(s)?
* base table
* child table
* parent table
* all tables

QUESTION 51

Which Report Type(s) can be created by right-clicking on a column header in a table’s list?
* Bar Chart, Pie Chart, Histogram, and Line
* Bar Chart
* Bar Chart, Pie Chart, and Histogram
* Bar Chart and Pie Chart

QUESTION 52

Which of the following are configured in an Email Notification?

a) Who will receive the notification.

b) What content will be in the notification.

c) When to send the notification.

d) How to send the notification.
* a, b and c
* a, b, and d
* b, c and d
* a, c and d
https://docs.servicenow.com/bundle/tokyo-servicenow-platform/page/administer/notification/task/t_CreateANotification.html

QUESTION 53

The task table is an example of which of the following?

Choose 2 answers
* Legacy class
* Child class
* Base class
* Parent class

“A table that extends another table is called a child class, and the table it extends is the parent class” – this is about halfway down in this link below:

https://docs.servicenow.com/en-US/bundle/tokyo-platform-administration/page/administer/table-administration/concept/table-extension-and-classes.html

QUESTION 54

When configuring a module, what does the Override application menu roles configuration option do?
* Users with the module role but without access to the application menu access the module
* Self-Service users can access the module even though they do not have roles
* Admin is given access to the module even if Access Controls would ordinarily prevent access
* Users with access to the application menu can see the module even if they don’t have the module role

Checkbox tooltip: “Show this module when the user has the specified roles. Otherwise the user must have the roles specified by both the application menu and the module.”

QUESTION 55

Which of the following are true for reports in ServiceNow? (Choose three.)
* Any user can see any report shared with them.
* Can be a graphical representation of data.
* All users can generate reports on any table.
* Can be run on demand by authorized users.
* Can be scheduled to be run and distributed by email.

https://docs.servicenow.com/bundle/rome-platform-administration/page/administer/reference-pages/task/schedule-report.html
Generate and distribute scheduled reports via email.

QUESTION 56

What are three ServiceNow table creation methods? (Choose three.)
* Using legacy Workflows
* Upload and turn a spreadsheet into a custom table
* Using Flow Designer
* Use the Now Experience Table Creator
* Extend a table
* Create a custom table

“If there are no spreadsheets or existing tables to use for your application, you can create and customize a new table.” see this quote in link below:

https://docs.servicenow.com/bundle/tokyo-application-development/page/build/app-engine-studio/task/create-table.html Also see:

https://docs.servicenow.com/bundle/tokyo-application-development/page/build/guided-app-creator/task/gac-create-table-from-scratch.html Also, no search results if search on “Now Experience Table Creator”.

QUESTION 57

In an Email Notification, which one of the following is NOT true for the Weight field?
* Only Notifications with the highest weight for the same record and recipients are sent
* A Weight value of zero means that no email should be sent
* The Weight value defaults to zero
* A Weight value of zero means the Notification is always sent when the Notification’s When to send criteria is met
Explanation/Reference: https://docs.servicenow.com/bundle/orlando-servicenow-platform/page/administer/notification/task/t_CreateANotification.html

QUESTION 58

Which of the following CANNOT be debugged using the Field Watcher?
* Business Rules
* Script Includes
* Client Scripts
* Access Controls

The CAD certification is a valuable credential for IT professionals looking to advance their careers in the field of ServiceNow development. It is recognized by employers and industry experts as a mark of excellence in ServiceNow development, and can help individuals distinguish themselves in a competitive job market. With the growing demand for ServiceNow professionals, obtaining a CAD certification can be a valuable investment in your career.
