### Free ACP-120 Exam Files Verified & Correct Answers Downloaded Instantly Instant Download ACP-120 Dumps Q&As Provide PDF&Test Engine

The ATlassian ACP-120 exam consists of 70 multiple-choice questions and is timed for 180 minutes. It covers a range of topics, including Jira Cloud administration, user management, project management, custom fields, workflows, and permissions. ACP-120 exam is designed to test the candidate's understanding of Jira Cloud concepts and their ability to apply that knowledge to real-world situations.

The Jira Cloud Administrator certification exam is intended for individuals who have experience in Jira administration, including system administrators, project administrators, and Jira consultants. ACP-120 exam provides a comprehensive assessment of the candidate's understanding of Jira Cloud and its features. It also tests the ability to troubleshoot common issues and apply best practices to ensure the smooth functioning of Jira Cloud instances.

#### NEW QUESTION 16

Carlos describes his problem in the classic HR project

\* He cannot attach files to issues of Request issue type when they are in the Approved status

- \* He can attach files to issues of Request issue type in any other status
- \* He can attach files to every other issue issue type in every status

He asks for your help in determining the root cause Select the root cause (Choose one)

- \* There is a workflow step property configured
- \* He is not a member of a security level
- \* The Attachment field is missing on the screen used by the Request issue type
- \* He does not have the correct project permission
- \* There is a workflow condition configured

### NEW QUESTION 17

Users have been adding sensitive information into the Description field of issues in a particular project. You must secure the project by any means necessary so that only members of the Managers group can view the contents of the Description field.

Which approach will definitely satisfy this requirement? (Choose one)

- \* Remove everyone from the browse projects permission
- \* Remove the description field from the screen used by the view operation
- \* Remove everyone except the managers group from every project permission
- \* Hide the description field in the field configuration
- \* Remove everyone except the managers group from every project role

### NEW QUESTION 18

You set up an incoming mail server and a mail handler to Create a new issue or add a comment to an existing issue

Which three additional options can you set with the mail configuration

- \* Set the environment system field
- \* Set a custom field
- \* Set watchers
- \* Create new users based on the From address
- \* Set a default reporter

### NEW QUESTION 19

Your management team needs to see a list of only those issues that were resolved in the previous week, from Sunday to Saturday. The list needs to be sent to them each week on Tuesdays. You plan to create a saved filter and filter subscription to do this.

Which JQL query will Mum the correct results?

- \* resolved endOfWeek(1)
- \* resolved ,= startOfWeek(-1) AND resolved startOfWeek0
- \* status changed TO RESOLVED BEFORE startOfWeek()
- \* resolved>=startOfDay(-7) AND resolved < startOfDay()

### NEW QUESTION 20

Your organization uses Jira Software and Confluence. Dave is a new employee who needs the following privileges

- \* Approve access requests
- \* Manage group memberships
- \* Update billing details

You need to give him enough but not too many privileges How should you configure Dave's user account? (Choose one)

- \* As a member of the jira-administrators and confluence-administrators group
- \* As a site administrator
- \* As an organization administrator
- \* As a member of the administrators group
- \* As a trusted user

### NEW QUESTION 21

You are adding a user to Jira software using the invite users method in user management Which setting on the page guarantees the user access to Jira software (Choose one)

- \* Group membership
- \* Email domains
- \* Product access
- \* Email address

### NEW QUESTION 22

In his personal settings, Bob has the setting 'Email notifications for issue activity' set to 'Don't send me email notifications';

Identify two reasons why Bob continues to receive some email notifications from Jira (Choose two)

- \* Bob has the Watch your issues setting enabled
- \* Bob has been subscribed to several filters
- \* Bob was added as a watcher of an issue
- \* Bob is mentioned directly in a comment
- \* Bob was sent an email via the Send email feature in Jira

### NEW QUESTION 23

Currently, several groups and project roles are listed in every system event of the DEV Notification Scheme and should remain that way. A new requirement states that when DEV issues move from the status Open to status Assigned, only Project Role (Managers) should be notified. DEV project does not share any of its schemes.

Identify the event that needs to be configured.

- \* Custom event
- \* Issue Moved
- \* Issue Assigned
- \* Work Started On Issue

### NEW QUESTION 24

Henry was recently assigned multiple issues in a classic software project. He has not received any email notifications about the assignment of these issues but he received notifications about other changes to issues from this and other projects.

Identify two possible reasons (Choose two)

- \* The Issue Updated event does not list the current assignee as a recipient in the project's notification scheme
- \* The Issue Assigned event does not list the current assignee as a recipient in the project's notification scheme
- \* Henry is missing the Browse Projects project permission in the Jira project
- \* Henry adjusted his personal email notification preference to not notify him when he is the assignee of an issue
- \* Henry is missing the Assignable User project permission in the Jira project

### NEW QUESTION 25

DEV and ENG projects share the same permission scheme. Users of both projects also work in a single board that shows both DEV and ENG issues.

However some users cannot move issues across the board or move issues between the two projects. Identify the configuration related to this problem. (Choose one)

- \* Product access
- \* Project permissions
- \* Board permissions
- \* Global permissions
- \* Security levels

### NEW QUESTION 26

You need to implement a change to several classic projects in your Jira instance

- \* A defined set of users needs to be able to create issues on behalf of other users It is important to note that
- \* Project administrators should be able to decide which users are able to perform this operation
- \* Some projects use a shared permission scheme

Which combined use of two administrative items will meet this requirement? (Choose two)

- \* Project role
- \* Global permission
- \* Project permission
- \* Individual users
- \* User group
