# Get Ready to Pass the H12-311_V3.0 exam with Huawei Latest Practice Exam [Q163-Q179

Get Ready to Pass the H12-311_V3.0 exam with Huawei Latest Practice Exam Get Prepared for Your H12-311_V3.0 Exam With Actual Huawei Study Guide! Q163. Which of the following are the relevant parameters of the Traffic template ().

(Select 2 Answers)
* 802.3 priority mapping strategy
* CAC strategy
* Tunnel priority mapping strategy
* ACK strategy

Q164. By multiple AP And the infrastructure mode network composed of distributed systems connecting them, also called what ()?
* Basic service set
* Basic service area
* Extended service set
* Extended service area

Q165. Which of the following options is the frequency range supported by China 5GHz Frequency band()?
* 5.15~5.25GHz

* 5.25~5.35GHz
* 5.725~5.825GHz
* 5.725~5.850GHz

Q166. if AP The transmit power is 1mW , Converted to dBm After () dBm.
* 20
* 1
* 0
* 10

Q167. In theory, the network cable used in the project cannot exceed ()rice.
* 50
* 80
* 100
* 150

Q168. Which of the following descriptions of management VLAN is correct is ().
* Mainly responsible for transmitting data when WLAN users go online
* PVID VLAN under the WLAN ESS interface
* Service VLAN under the service set template
* Responsible for the establishment of the CAPWAP tunnel between AC and AP

Q169. Which of the following descriptions of power splitters and couplers are correct is ().
* Power divider and coupler are equal power distribution
* The power divider is equal power distribution, and the coupler is unequal power distribution
* The power divider is unequal power distribution, and the coupler is equal power distribution
* Power divider and coupler are unequal power distribution

Q170. What frame does the wireless client passively scan to obtain the surrounding wireless network information ()?
* Beacon frame
* Probe Request frame
* Authentication frame
* Association Request frame

Q171. A 10 Floors of buildings need to be covered WLAN Signal, because taking into account the floor block, which can be set to 6 channel.

5,6 Layered WLAN Signal frequency
* True
* False

Q172. Which of the following statements about region is correct ()?

(Select 3 Answers)
* APs belonging to the same region will uniformly adjust the radio frequency channel and power
* An AP can belong to two regions at the same time, so that roaming is more optimized
* If there is no configuration, all APs belong to region 0 by default
* AP region has three types of deployment: dense deployment, discrete deployment, and ordinary deployment.

Q173. If the wireless client wants to pass AP Connected to WLAN , Then what is it through to connect to the wireless network ()?

* SSID
* IBSS
* BSID
* BSA

Q174. about AP6610DN , The following statement is wrong ().
* AP6610DN Is enhanced outdoor AP
* AP6610DN Is dual frequency AP,in 5GHz Frequency band can be used for wireless bridging and user access
* AP6610 Only one Ethernet interface, the highest bandwidth 1000M
* AP66010DN Support both Ethernet interface and optical fiber interface

Q175. Not loaded license Time AC6605 Supported by default AP The number is ().
* 4
* 0
* 8
* 10

Q176. Which of the following technologies work at 5 GHz ()? (Select 2 Answers)
* radar
* Bluetooth
* Infrared
* Digital satellite

Q177. 2.4 GHz How many channels () can the frequency band be divided into at most?
* 14
* 13
* 11
* 3

Q178. Which of the following options are the basic functions of configuring Huawei wireless controllers ()? (Select 3 Answers)
* Configuration AC-ID
* Configuration Radio template
* Configuration AC Country code
* Configuration AC of WLAN Source interface

Q179. 802.11g What rates can be supported?
* 1,2,5.5,11&6,9,12,18,24,30,36,48,54 Mbps
* 6, 9, 12, 18, 24, 36, 48, 54 Mbps
* 1,2,5.5,11&6,9,12,18,24,36,48,54 Mbps
* 6,9,12,18,24,30,36,48,54 Mbps

Huawei H12-311_V3.0 certification exam covers a broad range of topics, including WLAN principles, WLAN standards and protocols, WLAN network planning and optimization, WLAN maintenance and troubleshooting, and WLAN security. H12-311_V3.0 exam is designed to evaluate the candidate's understanding of these topics and their ability to apply this knowledge in real-world scenarios. The HCIA-WLAN V3.0 certification exam is a challenging test that requires candidates to have a deep understanding of wireless network technologies.
