

Pass HP HPE0-S60 exam Dumps 100 Pass Guarantee With Latest Demo [Q23-Q38]

Pass HP HPE0-S60 exam Dumps 100 Pass Guarantee With Latest Demo The HPE0-S60 PDF Dumps Greatest for the HP Exam Study Guide!

HP HPE0-S60 exam, also known as Delta - HPE Compute Solutions, is designed for IT professionals who are interested in validating their skills and knowledge in HPE compute solutions. HPE0-S60 exam is intended for those who have already passed the HPE0-S56 exam and want to update their knowledge of HPE compute solutions.

QUESTION 23

The proposal consists of.

– 3 HPE Synergy 12000 frames

– 6 HPE Composer 2 modules

– 2 HPE Virtual Connect SE 100 GO F32 Module

– 4 HPE Synergy 50 GO interconnect Link Module

Which statements about this proposed design are true? (Select two.)

- * The selected interconnect modules do not provide the requested WWN virtualization
- * HPE Synergy 50Gb ILMs must be replaced with HPE Virtual Connect SE 100 GO F32 modules
- * The current setup can support up to 18 HPE Synergy 480 Gen10 Plus compute modules
- * FC upgrade licenses for HPE Virtual Connect SE 100 GbF32 Module must be added
- * Remove 4 HPE Composer 2 modules from the design, as they are not required

QUESTION 24

An HPE Synergy customer needs to prevent a timeout and loss of communication during an external switch firmware upgrade.

Click the parameter that the customer should configure within an uplink set to meet this requirement

Create Uplink Set ?

General

Name: Prod-US

Consistency checking: Exact match

Style: Standard

Connection mode: Automatic

LACP timer: Short (1s)

LACP load balancing: Source & Destination MAC Address

LACP failover trigger: All active uplinks transition to offline

LACP distribute uplink ports:

QUESTION 25

What is a restriction of using a RoCE network?

- * It is by default configured as an untagged network and cannot be a part of a network set.
- * It does not support Private VLAN and Multicast VLAN.
- * it is not supported with HPE Virtual Connect SE 40 GD F8 Module for HPE Synergy.
- * It does not support smart link and private network features.

QUESTION 26

Your customer experienced some problems caused by outdated HPE Superdome Flex firmware. Which update method should they use to avoid these issues in the future?

- * HPE OneView method for I/O firmware update procedure
- * RMC CLI to update I/O and HPE Persistent Memory firmware
- * HPE OneView IT HPE Persistent Memory firmware must be updated.
- * HPE SUM if HPE Persistent Memory firmware must be updated

QUESTION 27

You are troubleshooting an HPE OneView server profile that presents a critical state. The server profile was configured with a Link Aggregation Group What should you check to fix the issue?

- * if both FiexNICs are configured with the same speed
- * If the logical enclosure is built on at least three HPE Synergy frames
- * if both FiexNICs are connected to different networks
- * if the logical enclosure is configured with redundant master modules

QUESTION 28

Which statement about HPE OneView milestone releases is true?

- * A milestone release is a release which must be installed on HPE Composer to support current version of the Service Pack for Synergy
- * A milestone release is a release that is published when HPE releases new hardware components to immediately support new systems
- * A milestone release is available for selected partners that give access to HPE OneView features which are not officially announced.
- * A milestone release is a release with an enhanced update architecture that is a prerequisite prior to updating to a subsequent release.

QUESTION 29

Your customer wants to compare HPE Superdome Flex with HPE Superdome Flex 280.

Which statement about these two systems is true?

- * Only HPE Superdome Rex 280 can be managed using HPE OneView
- * Only HPE Superdome Flex supports HPE Persistent Memory
- * Only HPE Superdome Flex 280 can support multiple nPars
- * Only HPE Superdome Flex supports 32 sockets and 48TB of memory

QUESTION 30

Which statement about HPE Apollo 2000 Gen10 Plus platform is true?

- * It is equipped with HPE Persistent memory by default
- * It can support a single processor only and up to 4 per chassis
- * It is fully managed using HPE OneView including all connections
- * It offers servers with AMD EPYC and Intel Xeon Scalable CPUs

QUESTION 31

What is one of the benefits of using HPE Composer 2?

- * HPE Composer 2 has 128GB of memory and 4 AMD CPUs to improve performance of the management system
- * HPE Composer 2 modules are required to manage HPE virtual Connect SE 100GD F32 Modules for Synergy
- * The administrator can access an HPE Synergy Composer 2 appliance remotely to perform First Time Setup
- * A pair of HPE Composer 2 modules can manage 42 frames, compared to 21 frames managed by HPE Composer

QUESTION 32

Your customer has an HPE Synergy platform deployed and managed using HPE OneView. The customer also has HPE Superdome Flex with RMC deployed. They plan to deploy a second nPar and HPE Superdome Flex.

280 They plan to manage new components using HPE OneView.

What must be done to achieve this goal?

- * The customer must use IL05 to add HPE Superdome Flex systems to HPE OneView
- * The customer should deploy an HPE OneView appliance for HPE Superdome Flex management
- * The customer must add a second Rack Management Controller for HPE Superdome Flex 280
- * The customer has to add HPE Superdome Flex to the HPE OneView used to manage HPE Synergy

QUESTION 33

Your customer uses HPE OneView to manage their HPE Synergy environment. They plan to use it to manage a new set of equipment that includes:

• 20 HPE ProLiant DL365 Gen10 Plus servers

• 20 HPE ProLiant DL380 Gen10 Plus servers

• 5 HPE Primera 650

• 5 HPE MSA 2062 Storage Array

Which statements about how OneView will work with this new equipment are true? (Select two)

- * HPE ProLiant DL365 Gen10 Plus servers are not supported in HPE OneView
- * HPE MSA 2062 Storage Array is not supported in HPE OneView
- * HPE OneView replaces array management tools for both types of array
- * HPE ProLiant DL380 Gen10 Plus servers have an HPE OneView license included
- * HPE Primera 650 can be managed using HPE OneView.

QUESTION 34

Your customer wants to add a second HPE Synergy frame to an existing logical enclosure Based on a single HPE Synergy frame. The customer wants to use a highly available master setup.

Which procedures should be performed during the expansion process? (Select two.)

- * Create a new logical interconnect group and enclosure group for two frames setup
- * Create a new logical enclosure based on both HPE Synergy frames.
- * Re-parent an existing enclosure group to the new logical interconnect group.
- * Modify an existing logical interconnect to include second HPE Synergy frame.
- * Move one of the master modules to the appropriate interconnect bay in the second frame.

QUESTION 35

Your customer manages an HPE Synergy platform using HPE OneView 5.6. To leverage new functionalities, the customer wants to update HPE OneView to version 6.1 Which statement about this update process is true?

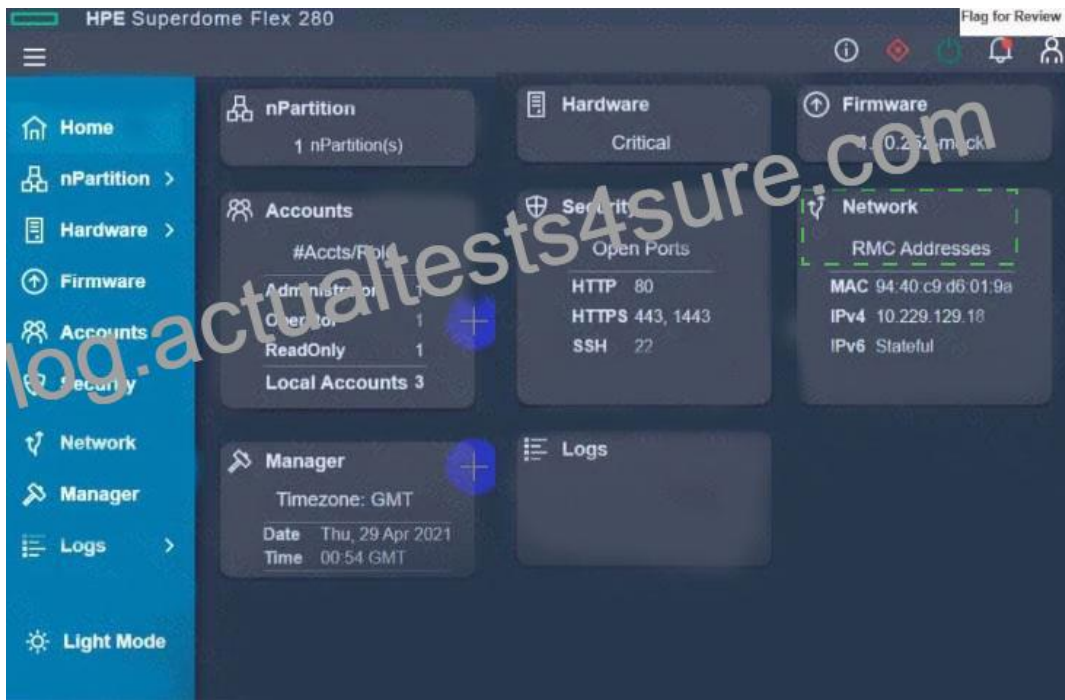

- * To update to 6.1, the customer has to first update to 6.0, which is a milestone edition.
- * The customer can update directly to 6.1, but HPE OneView downtime will be longer.
- * Before updating to 6.1, customer should increase memory size on the HPE Composer.
- * The customer must check the HPE Composer version, as 6.1 is supported only with HPE Composer2.

QUESTION 36

After deploying HPE Superdome Flex 280 you need to check Core Analysis Engine (CAE) Log.

Click the appropriate section in the HPE Superdome Flex 280 management interface that will allow you to complete this task.

QUESTION 37

Your customer plans to deploy ESXi systems to HPE Synergy and HPE ProLiant servers using HPE OneView for VMware vCenter Server.

Which statement about HPE OneView for VMware vCenter Server functionality is true for this environment?

- * HPE ProLiant servers need an HPE OneView for VMware vCenter Server license for full functionality
- * Individual systems can be added to HPE OneView for VMware vCenter Server through an ILO management processor
- * HPE Synergy requires HPE Composer 2 for full functionality of HPE OneView for VMware vCenter Server
- * Only systems managed using HPE Oneview can use HPE Oneview for VMware vCenter Server functionalities

QUESTION 38

Which statement about an HPE Oneview support dump is true?

- * Appliance support dump by default contains a logical enclosure support dump
- * Support dump is a binary file that can be opened only in a dedicated application
- * Support dump can be created if HPE Virtual Connect modules are installed in the frame
- * Preview support dump is available only when creating an appliance support dump

HP HPE0-S60 exam is intended for professionals with experience in HPE compute solutions. This includes system administrators, network administrators, and IT professionals who are responsible for designing, deploying, and managing HPE compute solutions. HPE0-S60 exam is also suitable for professionals who are interested in expanding their knowledge of HPE compute solutions and validating their skills in this area. Overall, the HP HPE0-S60 (Delta - HPE Compute Solutions) Exam is an excellent way for professionals to validate their expertise in HPE compute solutions and demonstrate their commitment to their profession.
