- * Choice of hardware vendor

Q46. Which task should you include in your procedure while preparing for a fit-to-standard analysis in an SAP Data Warehouse Cloud project? Note: There are 2 correct answers to this question.

- * Review all the necessary Implementation Design Principles (IDPs).
- * Review all the necessary leading practice process diagrams.
- * Review available SAP S/4HANA accelerators for the Data Management workstream.
- * Review SAP S/4HANA best practices availability for your country.

Q47. Working in an Agile approach, what should your planning look like at the Beginning of the realize phase?

- * Project scope and planning are completed and final
- * User stories are in a ready state for NO more than the first three sprints
- * Go-live scope is fixed on the first of January the following year
- * Timelines of the sprint may differ due to the workload

Q48. In which phase do you verify that the SAP best practices content meets the customer's Business needs?

- * Realize
- * Deploy
- * Prepare
- * Explore

Q49. Which of the following are levels in the structure of an SAP Best practices solution package?

There are 2 correct answers to this question

- * Building blocks
- * Configuration guides
- * Scope items
- * Business process scenarios

Q50. Which of the following are cornerstones of SAP's security strategy? Note: There are 3 correct answers to this question

- * Secure Company
- * Secure Projects
- * Secure Operations
- * Secure Infrastructure
- * Secure Products

A is correct because Secure Company is one of the cornerstones of SAP's security strategy. It means that SAP ensures that its own organization, employees, and processes comply with the highest security standards and regulations.

C is correct because Secure Operations is one of the cornerstones of SAP's security strategy. It means that SAP ensures that its cloud services are operated securely and reliably, with measures such as data protection, encryption, backup, monitoring, and incident response.

E is correct because Secure Products is one of the cornerstones of SAP's security strategy. It means that SAP ensures that its software products are developed securely and follow best practices such as secure coding, testing, and patching.

Q51. What tool would you use for managing project tasks and Solution Documentation when implementing SAP S/4HANA Cloud?

- * Implementation portal for SAP S/4HANA Cloud
- * SAP Roadmap Viewer
- * SAP Support Marketplace
- * SAP Transformation Navigator

Q52. In which phase do you verify that the SAP Best Practices content meets the customer's business needs, and then capture gaps?

- * Prepare
- * Deploy
- * Realize
- * Explore
