# Accurate Hot Selling H19-435_V1.0 Exam Dumps 2024 Newly Released [Q50-Q69

Accurate Hot Selling H19-435_V1.0 Exam Dumps 2024 Newly Released
Get 100% Authentic Huawei H19-435_V1.0 Dumps with Correct Answers

Q50. In high-performance computing solutions, the lnfiniBand network needs to be used in most cases, what are the characteristics of the IB network?
* High latency and low bandwidth
* High latency and high bandwidth
* Latency, low bandwidth
* Low latency and high bandwidth

Q51. Does OceanStor Dorado V6 support NAS relationship with OceanStor V5 series?
* TRUE
* FALSE

Q52. Which of the following statements is true?
* A FusionCube1000 is a 9000-based solution
* FusionCube1000 is a centrally managed branch solution

* FusionCube1000 is a KUNLUN server-based solution
* FusionCube1000is 9000-based solution

Q53. OceanStor Dorado 5300 V6 supports the following maximum cache specifications
* 128GB
* 64GB
* 256GB

Q54. OceanStor 5510 V5 recommends the most competitive configuration:
* SSD+SAS
* NVMe+NL-SAS
* SAS SSD+NL-SAS
* SAS

Q55. In the previous generation V5, the products that use ARM processors are:
* OceanStor 5800 V5
* OceanStor 5300 V5
* OceanStor 5500 V5
* OceanStor 5600 V5

Q56. The database management system comprises a relational database management system, a hierarchical database management system and a mesh database management system ()
* TRUE
* FALSE

Q57. The 10G ports of the OceanStor V5 “core” series are equipped with optical modules
* TRUE
* FALSE

Q58. Which of the following statements is true?
* FusionCube 1000 is a 9000-based solution
* FusionCube 1000 is a centrally managed branch solution
* FusionCube 1000 is a KUNLUN server-based solution
* FusionCube 1000 is a 9000-based solution

Q59. What are the main changes between OceanStor V5 and V3?
* Hardware upgrade
* Software refactoring
* The shape is completely changing

Q60. What is the maximum performance of LsilonF800 single node?(1.)
* 3GB/s
* 3.75GB/s
* 4.25GB/s
* 4.GB/s

Q61. OceanStor 5510 V5 does not support the following dual-controller cache specifications
* 384GB
* 512GB
* 256B

Q62. In the video surveillance scenario, how many channels of 4Mbps video recording can be supported by a single node

* 500
* 600
* 400
* 300

Q63. What is the function of SmartPartition?

* Use SSD to expand the L2 cache
* Virtual pooling of storage resources
* Specify cache quota (partition) for core business
* Volume space is shared and allocated on demand

Q64. OceanStor Dorado V6 series products support both SAN and NAS hypertroms

* TRUE
* FALSE

Q65. What type of storage is commonly used for database applications?

* SAN
* NAS
* DAS
* JBOD

Q66. How many objects can be supported in a single bucket of OceanStor 100D with stable performance

* tens of billions
* billion
* 100 billion
* trillions

Q67. FusionCube2000 hyper-convergence supports independent expansion of computing nodes or storage nodes

* TRUE
* FALSE

Q68. According to IDC data in China, FusionCube ranks first in the hyper-converged market share

* TRUE
* FALSE

Q69. 2020 Huawei’s all-flash sales strategy: high-end products are recommended first ()

* OceanStor 18510 V5
* OceanStor 18510F V5
* OceanStor Dorado 18500 V6

Dumps of H19-435_V1.0 Cover all the requirements of the Real Exam:
