Latest C_IBP_2311 Exam Dumps Recently Updated 80 Questions

QUESTION 48

What are some of the actions configurators can do when working correct answers to this question

* Delete key figure data for a date range for all versions at once
* Copy key figure data from any version to any version
* Copy master data from base version to other version
* Run an application job to purge obsolete versions

QUESTION 49

Which SAP IBP planning operator can be run to delete planning objects in a certain version?

* Purge Master Data
* Purge Key Figure Data Outside Planning Area Planning Horizon
* Purge Key Figure Data
* Purge Non-Confirming Data

QUESTION 50

You are implementing SAP IBP for sales and operations and are researching forecast mode algorithms. What are some of the algorithms that can be used? Note: There are 2 correct answers to this question
* Data-cleansing algorithms
* Trend models algorithms
* Sporadic demand models algorithms
* Naive models algorithms

QUESTION 51

Which Supply Planning processes are part of the tactical Planning level within a Planning Hierarchy? Note:

There are 2 correct answers to this question.
* Order Prioritization
* Stock Replenishment
* Inventory Build and Reduction
* Balancing Supply and Demand

QUESTION 52

Which conditions have to be fulfilled as a prerequisite to maintain a key figure disaggregation? Note: There are 2 correct answers to this question.
* The key figure is calculated and system editable
* The key figure is calculated and all editable.
* The key figure is stored and system editable.
* The key figure is stored and all editable

QUESTION 53

You configured a stored key figure with an editability setting of “not editable” How can users modify the values of that key figure? Note: There are 2 correct answers to this question
* Importing the key figure data files using the Web UI
* Using the key figure calculations in the Web UI
* Using planning object maintenance with key figure data in Excel UI
* Managing the master data via the web UI

QUESTION 54

Which type of master data represents the Master Data Type Component?
* Virtual mater data type
* Compound Master Data Type
* Reference Master data type
* External Master Data Type

QUESTION 55

How many different time levels can be selected within one planning view?
* Only time levels from the base planning level of selected key figures

* All time levels available in the time profile, restricted by global configuration parameter
* All time levels available in the time profile
* The number of time levels is restricted to four to avoid negative effects on performance

QUESTION 56

You create a planning filter using an SAP IBP Fiori app. Which of the following objects can it be appliedto? Note: There are 2 correct answers to this question.
* Planning view template in the SAP IBP, add-in for Microsoft Excel
* Jobs in the Application jobs app
* Compare function in the Planning Areas app
* Supply chain graph in Supply Chain Network app

QUESTION 57

What are the S&OP operator (optimizer) parameters associated with demand fair share?
* Number of fair share segments Maximum days of coverage Number of fair share segments late delivery
* Number of fair share segments Additional tiering costs (default) Number of fair share segments late delivery
* Number of fair share segments Additional tiering costs (default) Maximum inventory
* Number of fair share segments Additional tiering costs (default) Inventory days of supply

QUESTION 58

You have set up a planning area, and data is now available. You adjust the necessary time profile settings and run a consistency check Which settings can you change and still run a successful consistency check? Note: There are 2 correct answers to this question
* Add a new time profile level to the time profile
* Change the numbering hierarchy of the period IDS in the time profile.
* Change the past and future horizon of the level in the time profile
* Change the description of attribute in the time profile

QUESTION 59

You are setting up planning with lot sizes. What are some of the properties of lot sizes that you need to beware of? Note: There are 2 correct answers to this question
* Lot sizes are applicable for production and handling quantities.
* Periodic lot size setting overrides the minimum lot size.
* Lot size are time-independent master data settings
* Lot size are applicable for production and transportation quantities

QUESTION 60

What function would you use to configure a year-to-date calculation?
* Rolling Aggregation
* Last Period Aggregation
* Cumulative Aggregation
* Dynamic Rolling Aggregation

QUESTION 61

Which constraints are taken into account by the Time-Series-Based Supply Planning Heuristic (Infinite)? Note: There are 3 correct

answers to this question
* Adjusted transportation receipts
* Aggregated constraints
* Maximum lot size
* Transportation lead time
* Minimum lot size

QUESTION 62

What is the feature of the weighted average key figure calculation?
* The numerator of the calculation should be stored.
* The first parameter of the formula acts as a weight
* Attributes can be used in weighted average key figure calculation
* The numerator’s value should include multiplication by the weight.

QUESTION 63

You are implementing a demand process in SAP IBP for sales and operations, and consider using the standard forecast key figures available in the sample planning area SAPIBP1. What are the first and last key figures in the logical progression of demand in the S&OP process?
* Local Demand Plan first and Combined Final Demand last
* Statistical Forecast Qty first and Consensus Demand Plan Qty last
* Local Demand Plan first and Consensus Demand Plan Qty last
* Statistical Forecast Qty first and Global Demand Plan Qty for SOP last

QUESTION 64

Which Maintenance, Repair, and Overhaul (MRO) parts planning processes are included in SAP Integrated Business Planning for Supply Chain? Note: There are 3 correct answers to this question.
* Inventory Optimization
* Demand Driven Replenishment
* Demand Planning
* Supply Planning
* SAP Intelligent Asset Management

QUESTION 65

Which of these conditions must be met to create a Local Member key figure? Note: There are 2 correct answers to this question
* Use Excel Cell reference in the report editor option is selected
* Users should have authorization for template administration.
* Activate Local Member recognition settings is selected
* A key figure is selected in the Key Figures tab in the SAP IBP, add-in for Microsoft Excel

QUESTION 66

What are some of the prerequisites for configuring a planning area that results in a successful consistency check? Note: There are 2 correct answers to this question.
* Configure at least one calculated key figure for the planning area
* Specify a planning horizon in the planning area for each level of the assigned time profile
* Configure at most two input key figures on the same planning level in a key figure calculation

* Assign the compound master data type and its component master data types

QUESTION 67

You need to integrate data from SAP S/4HANA and legacy ERP to SAP IBP. What are the integration toolsthat you can use with such a setup for data transfer? Note: There are 2 correct answers to this question.
* SAP Cloud Integration for data services
* SAP Smart data Integration
* Core Interface
* Real-time Integration

QUESTION 68

How do you achieve rolling aggregation with SAP IBP?
* Using an attribute as a key figure
* Using an appropriate period weight factor
* Using a key figure calculation
* Using a local member

QUESTION 69

What is taken as an input for the demand sensing process? Note: There are 2 correct answers to this question.
* Results of time series analysis
* Forecast Accuracy measures
* Open Sales Order
* Consensus Demand

QUESTION 70

You are adding a value-based filter to a planning view. Which of the following conditions apply? Note: Thereare 2 correct answers to this question.
* These filters can be used together with attributes totals in the same planning view
* The alerts dashboard is not available if a value-based filter is set for the open planning view
* You can add (or delete) planning objects to a planning view after these filters are applied
* You can only apply one value-based filter per planning view.

QUESTION 71

You are configuring disaggregation for the KF 1 key figure in the Planning Areas Model Configuration app. Which methods can you use? Note: There are 3 correct answers to this question
* Disaggregation according to user-defined expression
* Disaggregation according to an equal split
* Disaggregation in batch triggered by an application job
* Disaggregation according to a helper key figure
* Proportional disaggregation by using KF2 in the expression
