Pass SAP C-C4H320-34 Actual Free Exam Q&As Updated Dump Oct 20, 2024 Latest C-C4H320-34 Actual Free Exam Updated 82 Questions QUESTION 28

You are considering selling bundled products on your web shop. Which of the following functions are supported by SAP commerce out of the box (OOTB)? Note: There are 2 correct Answer to this question

- * Substituting a product with an equivalent product in a bundle when the order is placed
- * A special cart function that displays and arranges bundles with their components on the cart pages
- * A Bundle Carousel, which is a special CMS Component, to display bundles on the product details page
- * A Bundles link under My Account that allows customers to configure bundles

QUESTION 29

Which of the following is a recommended use case for product variants?

- * The product manager picks valid values for the voltage attribute inherited by products in the Household Appliances category
- * The product manager defines a localized product variation for each country-specific website.
- * The customer picks from a selection of fabrics when adding a jacket to the cart
- * The customer picks a size for each of the four drives in a disk array.

Product variants are used to provide customers with the ability to customize products with different attributes, such as size, color, fabric, etc. This allows customers to choose the exact product that suits their needs. For example, in the case of a jacket, the customer may be able to choose from a selection of fabrics.

QUESTION 30

How does Personalization mode in SmartEdit visualize multiple customizations simultaneously?Note: There are 2 correct Answer to this question
